

Jordan: Ahmed

University Student

Ahmed is a **student** at a Jordanian university. He is concerned about the state of affairs in his country and he wants to **raise awareness** about what is happening.

Ahmed always tries to express his concerns **securely and anonymously**, usually relying on social media networks to do so. He has not yet faced any prosecution or retaliation.

"People in my country need to be able to express themselves securely, regardless of their opinions."

Goals

He wants to be able to express himself **freely and securely**.

He wants to communicate securely using WhatsApp and **anonymously** using facebook.

#anonymity #securecomms

Threats

Partly Free
(Freedom on the Net 2017)

He fears that being vocal about his opinions online will endanger his safety and might lead to **arrest**.

He fears that expressing opinions that are different will **alienate** him in his society.

He is worried he may be **surveilled** or his devices may be **confiscated**.

#surveillance #arrest #seizure

Internews
Local voices. Global change.

Strengths

Ahmed owns a **smart phone**.

He is familiar with using **social media networks** for communication.

He can write and understand some **English**.

Questions

How can I be **anonymous** on facebook?

How can I protect myself from **surveillance**?

How can I make sure messages to my friends are only read by the **intended recipient**?
